

At Monk's Bar & Grill, the health and safety of our customer is of top importance and our main concern. The menu items listed on these pages **ARE MADE WITH INGREDIENTS WHICH CONTAIN THE LISTED ALLERGENS** (denoted with an 'X').

All of our kitchen operations do include food sharing in all preparation and equipment; this does include our fryer oil, which makes it possible for food items to come in contact with one another.

WE CANNOT GUARANTEE THAT CERTAIN FOOD ITEMS ARE COMPLETELY FREE OF ALLERGENS BECAUSE OF THE PREPARATION CIRCUMSTANCES MENTIONED ABOVE.

ALLERGEN GUIDE

At Monk's Bar & Grill we are dedicated to the health and safety of our customers. The information provided identifies the menu items that **contain ingredients** from the most common allergens (soy, egg, dairy, wheat, peanut, tree nut, fish and shellfish) and intolerances based on our supplier information. It **does not reflect the process** in which the food is prepared (i.e., deep fried, grilled, sautéed, etc.).

All of our kitchen operations share prep areas and equipment. **All fried items are prepared in oil which is also used to cook shellfish, fish and breaded items**, which makes it possible to have cross-contact exposure to other foods. Therefore, we **cannot** guarantee that any menu item can be 100% completely free of allergens.

We do have protocol set in place for our customers with food allergies, but even with our process and procedures in place, we cannot guarantee that any item is 100% completely free of allergens. Our staff and management is trained to answer questions about our food and preparation in order to do our best to accommodate anyone with an allergy or intolerance to certain types of food.
